

Pets and Pet Housing

***Kennels:** (inside and out) Spray liberally entire area with NOK-OUT full strength (for first application). Use electric atomizer or a good spray applicator (available from your distributor). Apply as needed using a 1:1 ratio with water thereafter.

***Handling Cages:** Use the same applications as in kennels, also wipe down of cages helps to reduce odors and protect from viruses.

***Horses/Cattle:** Spray directly onto your animals' coat to eliminate biting insects and reduce odor.

***Horse Trailers:** Before travel to and from other areas, spray liberally to eliminate all malodors and also protect animals from elements associated with travel to other stalls and arenas.

***Pets:** Spray directly on animal to eliminate coat odors. Add to bath water when bathing or use as a final rinse additive. Use with flea dip or spray to help eliminate chemical odor.

Remember: NOK-OUT is safe for you and your pets, (dogs, cats, birds, horses, etc.) If you have any concerns, please refer to the MSDS found on our Technical Page.

Pet Shops, Humane Societies, Commercial Kennels, Boarding etc., these are all areas that NOK-OUT will be beneficial.
